MIDLAND STATES BANCORP, INC. ANNOUNCES 2021 SECOND QUARTER RESULTS

Summary

- Net income of \$20.1 million, or \$0.88 diluted earnings per share
- Return on average shareholders' equity of 12.59%
- Return on average tangible common equity of 17.85%
- Tangible common equity to tangible assets ratio increased 45 bps to 7.12%
- Book value and tangible book value per share increased 1.9% and 2.5%, respectively
- Acquisition of ATG Trust Company completed in June 2021

Effingham, IL, July 22, 2021 – Midland States Bancorp, Inc. (Nasdaq: MSBI) (the "Company") today reported net income of \$20.1 million, or \$0.88 diluted earnings per share, for the second quarter of 2021, which included a \$6.8 million tax benefit related to the settlement of a prior tax issue, \$3.6 million in professional fees related to the settlement, and a \$3.7 million charge related to the prepayment of a longer-term FHLB advance. This compares to net income of \$18.5 million, or \$0.81 diluted earnings per share, for the first quarter of 2021, and to net income of \$12.6 million, or \$0.53 diluted earnings per share, for the second quarter of 2020.

Jeffrey G. Ludwig, President and Chief Executive Officer of the Company, said, "We continue to see strong improvement in our level of profitability resulting from the changes we have made in our operations to generate a more consistent revenue mix and increase our focus on businesses that produce higher returns. The higher level of profitability we are generating is strengthening our capital ratios and enhancing our ability to support organic and acquisitive growth in the future.

"Economic conditions are steadily improving and creating more loan demand. During the second quarter, we saw increased production in our equipment finance, construction, and commercial real estate lending areas, which helped offset continued runoff in PPP loans and a decline in utilization of commercial FHA warehouse lines of credit. Excluding PPP loans and commercial FHA warehouse lines of credit, total loans increased at an annualized rate of 6% during the second quarter, which was at the high end of our expected range. The increased economic activity is also leading to higher levels of non-interest income, which increased 18% from the prior quarter. The increase in non-interest income was partially driven by a 10% increase in wealth management revenue resulting from our acquisition of ATG Trust Company in June.

"We continue to expect an increase in loan growth during the second half of the year. The loan pipeline in our Community Banking group is approximately 14% higher than it was at the end of the first quarter, which reflects improving loan demand and the contributions we are seeing from new bankers added over the past several months. As loan growth increases, we expect that we will see further improvement in our level of profitability driven by additional operating leverage and a favorable shift in our mix of earning assets," said Mr. Ludwig.

Adjusted Earnings

Financial results for the second quarter of 2021 were impacted by a \$6.8 million tax benefit related to the settlement of a prior tax issue, \$3.8 million of integration and acquisition expenses inclusive of the \$3.6 million in professional fees related to the settlement, and a \$3.7 million charge related to the prepayment of a longer-term FHLB advance. Excluding these amounts and certain other income and expense, adjusted earnings were \$19.8 million, or \$0.86 diluted earnings per share, for the second quarter of 2021.

Financial results for the second quarter of 2020 were impacted by a \$0.4 million loss on residential mortgage servicing rights ("MSRs") held-for-sale and \$0.1 million in integration and acquisition expenses. Excluding these amounts and certain income, adjusted earnings were \$12.9 million, or \$0.55 diluted earnings per share, for the second quarter of 2020.

A reconciliation of adjusted earnings to net income according to accounting principles generally accepted in the United States ("GAAP") is provided in the financial tables at the end of this press release.

Net Interest Margin

Net interest margin for the second quarter of 2021 was 3.29%, compared to 3.45% for the first quarter of 2021. The Company's net interest margin benefits from accretion income on purchased loan portfolios, which contributed 9 and 8 basis points to net interest margin in the second quarter of 2021 and first quarter of 2021, respectively. Excluding the impact of accretion income, net interest margin declined 17 basis points from the first quarter of 2021, due primarily to an unfavorable shift in the mix of earning assets.

Relative to the second quarter of 2020, net interest margin decreased from 3.32%. Accretion income on purchased loan portfolios contributed 12 basis points to net interest margin in the second quarter of 2020. Excluding the impact of accretion income, net interest margin was unchanged compared to the second quarter of 2020.

Net Interest Income

Net interest income for the second quarter of 2021 was \$50.1 million, a decrease of 3.4% from \$51.9 million for the first quarter of 2021. Excluding accretion income, net interest income decreased \$1.9 million from the prior quarter, which was primarily due to lower levels of loan prepayment fees, an unfavorable shift in the mix of earning assets, and the recovery of interest on a previously charged-off loan during the first quarter of 2021. Accretion income associated with purchased loan portfolios totaled \$1.3 million for the second quarter of 2021, compared with \$1.2 million for the first quarter of 2021. PPP loan income totaled \$2.5 million, including loan origination fees of \$2.0 million, in the second quarter of 2021, compared to \$2.6 million, including loan origination fees of \$2.1 million, in the first quarter of 2021.

Relative to the second quarter of 2020, net interest income increased \$1.1 million, or 2.3%. Accretion income for the second quarter of 2020 was \$1.8 million. Excluding the impact of accretion income, net

interest income increased primarily due to organic loan growth and a significant decline in the cost of funds

Noninterest Income

Noninterest income for the second quarter of 2021 was \$17.4 million, an increase of 17.6% from \$14.8 million for the first quarter of 2021. Impairment on commercial MSRs impacted noninterest income by \$1.1 million and \$1.3 million in the second quarter of 2021 and first quarter of 2021, respectively. Excluding the impairments, noninterest income increased 15.4% primarily due to higher levels of wealth management and interchange revenue, as well as gains on the sale of investment securities and other real estate owned.

Relative to the second quarter of 2020, noninterest income decreased 10.2% from \$19.4 million. The decrease was primarily attributable to a lower level of commercial FHA revenue due to the sale of the loan origination platform, partially offset by higher wealth management revenue.

Wealth management revenue for the second quarter of 2021 was \$6.5 million, an increase of 10.1% from the first quarter of 2021, primarily due to the one month contribution of ATG Trust Company following its acquisition at the beginning of June. Compared to the second quarter of 2020, wealth management revenue increased 14.6%, primarily due to the increase in assets under administration over the past year and the one month contribution of ATG Trust Company.

Noninterest Expense

Noninterest expense for the second quarter of 2021 was \$48.9 million, which included \$3.6 million in professional fees related to the settlement of the prior tax issue and \$3.7 million in FHLB advance prepayment fees, compared with \$39.1 million in the first quarter of 2021, which included \$0.2 million in integration and acquisition expenses. Excluding the professional fees related to the settlement of the prior tax issue, FHLB advance prepayment fees, and integration and acquisition expenses, noninterest expense increased by \$2.5 million, primarily due to an increase in salaries and employees benefit expense resulting from higher incentive compensation.

Relative to the second quarter of 2020, noninterest expense increased 18.2% from \$41.4 million, which included a \$0.4 million loss on residential MSRs held for sale and \$0.1 million in integration and acquisition expenses. Excluding the professional fees related to the settlement of the prior tax issue, FHLB advance prepayment fees, loss on residential MSRs held for sale, and integration and acquisition expenses, noninterest expense increased \$0.4 million, primarily due to higher salaries and employee benefits expense.

Loan Portfolio

Total loans outstanding were \$4.84 billion at June 30, 2021, compared with \$4.91 billion at March 31, 2021 and \$4.84 billion at June 30, 2020. The decrease in total loans from March 31, 2021 was primarily attributable to lower end-of-period balances on commercial FHA warehouse lines of credit, forgiveness of PPP loans, and runoff in the residential real estate portfolio resulting from refinancings, which was partially offset by higher commercial real estate, construction and consumer loans.

Equipment finance balances increased \$12.9 million from March 31, 2021 to \$871.5 million at June 30, 2021, which are booked within the commercial loans and leases portfolio.

Compared to loan balances at June 30, 2020, growth in equipment finance balances, commercial real

estate, and consumer loans was offset by declines in residential real estate loans and PPP loans held in the commercial portfolio.

Deposits

Total deposits were \$5.20 billion at June 30, 2021, compared with \$5.34 billion at March 31, 2021, and \$4.94 billion at June 30, 2020. The decrease in total deposits from the end of the prior quarter was primarily attributable to a decline in commercial FHA servicing deposits and outflows of retail deposits consistent with the increase in economic activity in the Company's markets.

Asset Quality

Nonperforming loans totaled \$61.4 million, or 1.27% of total loans, at June 30, 2021, compared with \$52.8 million, or 1.08% of total loans, at March 31, 2021. The increase in nonperforming loans was primarily attributable to three loans in the hotel/motel portfolio placed on nonaccrual during the quarter. At June 30, 2020, nonperforming loans totaled \$60.5 million, or 1.25% of total loans.

Net charge-offs for the second quarter of 2021 were \$4.0 million, or 0.33% of average loans on an annualized basis, compared to net charge-offs of \$1.7 million, or 0.14% of average loans on an annualized basis, for the first quarter of 2021 and \$3.1 million, or 0.26% of average loans on an annualized basis, for the second quarter of 2020.

The Company recorded a negative provision for credit losses of \$0.5 million for the second quarter of 2021. No provision for credit losses on loans was recorded due to general improvement in portfolio mix and economic forecasts, while a negative provision of \$0.5 million was recorded for credit losses on unfunded commitments and available-for-sale securities.

The Company's allowance for credit losses on loans was 1.21% of total loans and 95.6% of nonperforming loans at June 30, 2021, compared with 1.28% of total loans and 118.7% of nonperforming loans at March 31, 2021. Approximately 91.6% of the allowance for credit losses on loans at June 30, 2021 was allocated to general reserves.

Capital

At June 30, 2021, Midland States Bank and the Company exceeded all regulatory capital requirements under Basel III, and Midland States Bank met the qualifications to be a "well-capitalized" financial institution, as summarized in the following table:
