## Outlook

- Prudent risk management will remain top priority while economic uncertainty remains
- Continue generating strong financial performance while maintaining conservative approach to new loan production to build capital and liquidity
- Planned reduction in the consumer portfolio will continue to be utilized to fund new commercial loan production, add to the securities portfolio and pay off higher cost funding sources with net impact likely being earnings neutral, but capital accretive
- Planned sale of commercial MSR portfolio has been terminated and this business will continue to provide a low-cost source of deposits
- Maintain disciplined expense management while getting further leverage from investments in talent and technology made over the past few years
- Business development efforts focused on adding new commercial and retail deposit relationships, supplemented with new Banking-as-a-Service partnerships focused on deposit generation that are expected to start making a contribution during the second half of 2023
- Strength of balance sheet expected to provide opportunities to capitalize on current environment to add new clients that will contribute to continued long-term profitable growth and increase in franchise value
