Net Interest Income/Margin

- Net interest income increased 5.0% from the prior quarter due to lower cost of funds and higher average loan balances
- Excluding the impact of accretion income, net interest margin declined 12 basis points
- Decline in net interest margin was primarily attributable to excess liquidity invested in lower-yielding earning assets and the addition of low-interest PPP loans, which collectively had an 18 bps impact on NIM in 2Q20
- 29 basis point decline in cost of deposits partially offset decline in earning asset yields
- PPP loan fees amortized over 24 month term of loans

Factors Impacting Net Interest Margin in 3Q20

- **\$107.1 million in time deposits scheduled to mature in 3Q20 with weighted average rate of 1.36%**
- **\$183.3 million in money market accounts at teaser rates of 1.60% scheduled to reprice in 3Q20**
- **\$31.1 million in subordinated debt moved to floating rate in June 2020, resulting in reduction of approximately 130 bps in 3Q20**
- **Building liquidity on balance sheet will continue to put pressure on NIM going forward**
- **PPP loans will positively impact NIM upon forgiveness**

Wealth Management

- During 2Q20, assets under administration increased \$286.2 million, primarily due to market performance
- Total Wealth Management revenue was up slightly from prior quarter
- Fees increased due to improved market performance, partially offset by reduction in trust fees related to tax preparation from prior quarter

(in millions)

Noninterest Income

- **Noninterest income increased 125.6% from prior quarter, which included an \$8.5 million impairment of commercial mortgage servicing rights (“MSRs”)**
- **Excluding the impact of the impairment of commercial MSRs, noninterest income increased 13.5% primarily due to higher commercial FHA and residential mortgage banking revenue**
- **Increase was offset by lower retail banking fees including service charges and overdraft fees due to the impact of COVID-19 pandemic**

Noninterest Income

Notes:

- (1) Represents service charges, interchange revenue, net gain (loss) on sale of investment securities, and other income
 (2) Excludes \$8.5 million impairment of commercial mortgage servicing rights

(\$ in millions)	2Q20	1Q20
Integration and acquisition related expenses	(\$0.05)	(\$1.0)
Loss on repurchase of subordinated debt	-	(\$0.2)
Loss on MSRs held for sale	\$(0.4)	\$(0.5)

- **Excluding these adjustments, noninterest expense declined \$0.6 million on a linked-quarter basis**
- **Decrease in noninterest expense was primarily attributable to lower salaries and employee benefits expense resulting from staffing level adjustments made in 1Q20**

Notes:

(1) Represents a non-GAAP financial measure. See "Non-GAAP Reconciliation" in the appendix.

Asset Quality

- Nonperforming loans/total loans declined to 1.25% from 1.33% at the end of the prior quarter
